

# SECURE THE OPERATION AND AVOID UNNESSESARY COSTS – WITH OUR INSURANCE

Regardless of which hardware that is included in your lease, we have an insurance solution. Here you can read more about what applies when it comes to mobile equipment such as mobile phones, tablets and computers.

## With our insurance you will get:

- An all-risk protection: i.e., protection for most things that can happen, such as dropping the equipment, theft and loss as well as fire and burglary.
- No depreciation on account of age.
- An insurance that in some cases covers the corresponding warranty damage if the warranty period has expired.
- Low excess included in the rent and no hidden insurance fees on the invoice.
- Low deductibles adapted to the new acquisition value of the equipment. It is also possible to choose deductible free.
