

LEASE FRAMEWORK AGREEMENT

If you want full control of your IT investments even when the costs are spread over a long period, a framework agreement is the perfect solution.

LEASING IS GOOD FOR THE ENVIRONMENT

Leasing your technical equipment is a flexible and economical way of accessing the latest technology.

Another advantage which has become increasingly apparent of late is the fact that a leasing solution is also good for the environment. When you lease your technical equipment, every component becomes part of an eco-cycle where everything that can be recycled or reused is utilised. Visit teliafinance.com to find out more about this scheme and its benefits.

DAMAGE PROTECTION

You can add comprehensive insurance to our leasing offer. This provides effective protection against financial setbacks and disruptions to business should your equipment be damaged. We then restore your functionality quickly by repairing or replacing the equipment, with no reduction in value, throughout the entire agreement period.

Essentially a framework agreement is a standard lease agreement, but with greater flexibility when you are not completely certain how much equipment your company will need.

The most important benefits of a framework agreement are:

- The agreement is formulated in different ways depending on the needs of your company; if you want a long or short procurement period, for example, or if you use one or more suppliers.
- With a set agreement term, you know how much you will be paying for the lease.
- The agreement may include hardware and software, non-recurring expenses, services and maintenance. Everything is collected in one place.
- You pay on a monthly or quarterly basis and the cost is a pure operating expense, a solution giving your company scope for investment in other areas.
- Accounting for all expenses on a single invoice simplifies administration, budgeting and follow-up.
- With a framework agreement, you always have access to new equipment and services without tying up capital in large investments.

HOW TO TAKE THE NEXT STEP
